CHAPTER 1: What is Manna Edge Markets?

Welcome to **Manna Edge Markets 2.0**! This platform is built to help you trade **Futures** and **Forex** with clarity, discipline, and systematic precision.

Instead of spending hours drawing lines on charts or chasing lagging technical indicators, Manna Edge Markets scans liquidity pools, institutional order blocks, and high-volume Killzone timing windows to deliver high-probability trade setups straight to your screen.

🌟 Core Benefits for Every Trader

- **Automatic Real-Time Scanning:** Monitors 12 major assets across Futures (NQ, ES, YM, Gold, Crude Oil) and Forex (EUR/USD, GBP/USD, USD/JPY, AUD/USD).
- **Pre-Calculated Risk & Reward:** Every setup gives you an exact Entry Price, Stop Loss, Target 1 (+2R Profit), and Target 2 (+3R Profit).
- **Automated Runner Management:** Trades that reach +1R open PnL automatically move to the *Active Runners Desk* with stop losses locked at Breakeven.

CHAPTER 2: Logging In & Setting Market Preferences

Getting started on Manna Edge Markets takes less than 30 seconds:

1. Enter Account Credentials

Type in your registered email address and password on the portal screen shown in Figure 1.1. Click **CONTINUE** → to sign in.

2. Customize Market Focus

Choose whether you want to view **FUTURES ONLY**, **FOREX ONLY**, or **BOTH MARKETS**. The platform customizes your setup feed instantly.

Account Security & Session Continuity

Your preferences and active watchlist are securely stored in your session, allowing you to switch between desktop and mobile browsers seamlessly.

CHAPTER 3: Navigating Your Trading Dashboard

Your **Main Trading Dashboard** provides complete visual control over all live setups and market feeds:

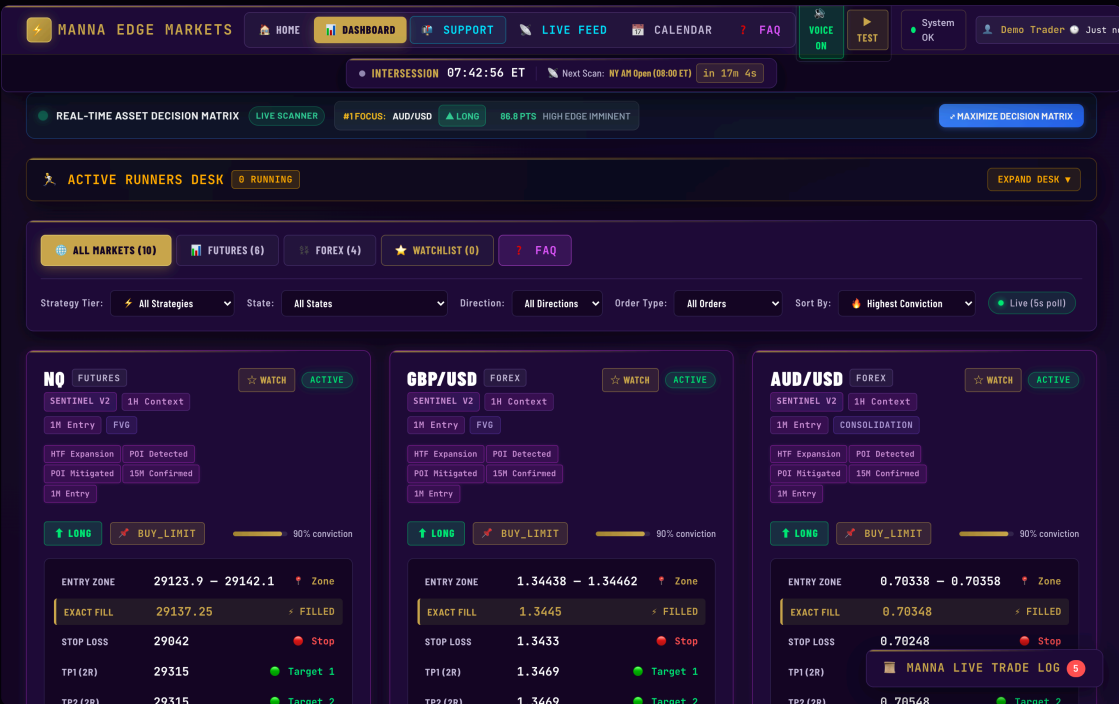

FIGURE 3.1 — Main Client Trading Dashboard Command Center

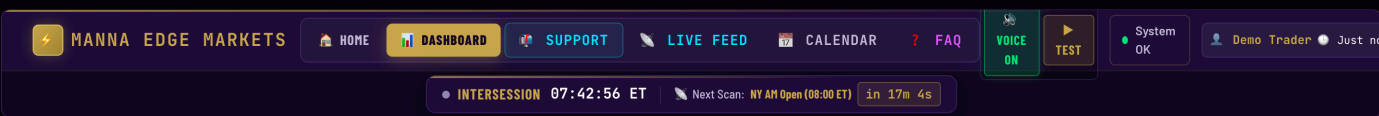

FIGURE 3.2 — Close-Up: Top Navigation Bar, Filter Tabs & Live Ticker Bar

◆ Market Filter Buttons

Click **ALL MARKETS** , **FUTURES** , or **FOREX** to instantly filter setups by asset class.

🏃 Active Runners Summary Bar

Positioned below the top nav, this bar displays how many active runner trades are currently locking in open profit.

CHAPTER 4: Understanding Trade Setup Cards

Every trade setup discovered by the system is rendered as a clean, standardized Trade Card:

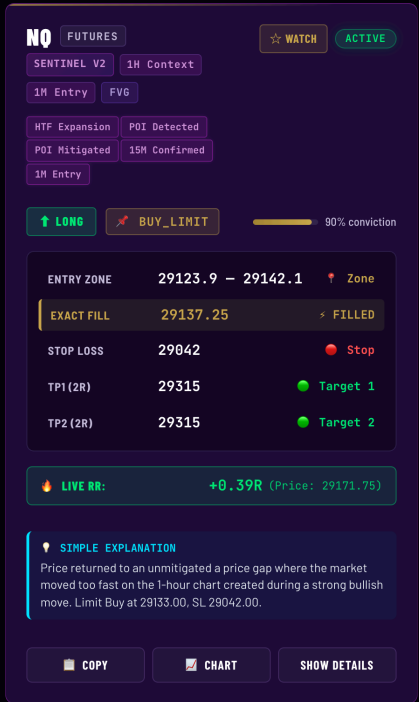

FIGURE 4.1 — Close-Up: Single Live Trade Setup Card

Complete Anatomy of a Trade Setup Card

ASSET & DIRECTION

Displays asset ticker and bias (e.g. NQ ▲ LONG for Buy or EUR/USD ▼ SHORT for Sell).

TARGET 1 (2R) & TARGET 2 (3R)

Target 1 locks in a 2:1 Reward-to-Risk ratio. Target 2 targets a 3:1 Reward-to-Risk expansion.

ENTRY ZONE

The precise price range (e.g. 212.143 – 212.183) where you place your limit entry order.

CONVICTION SCORE %

Empirical rating (e.g., 95% Conviction) derived from multi-timeframe alignment.

CHAPTER 5: The Asset Decision Matrix

The **Asset Decision Matrix** dynamically scores and ranks every asset in your watchlist so you immediately know which trade setup is strongest at any given minute.

FIGURE 5.1 — Close-Up: Asset Decision Matrix Priority Scoring Card

The 6 Core Factors of Asset Scoring

1. **Conviction Score (25% Weight):** Higher statistical confidence setups rank top.
2. **Historical Win Rate (25% Weight):** Evaluates win-rate history for that instrument.
3. **Liquidity & Volume (15% Weight):** Ensures tight execution spreads and high volume.
4. **Reward-to-Risk Ratio (15% Weight):** Favors setups with high upside potential.
5. **Killzone Timing (10% Weight):** Extra points during active London & New York sessions.
6. **Price Proximity (10% Weight):** Highlights assets currently sitting right inside entry zone.

CHAPTER 6: Position Sizing & Risk Management

Proper risk management protects your capital. Clicking on any Trade Card opens the **Interactive Risk Calculator**:

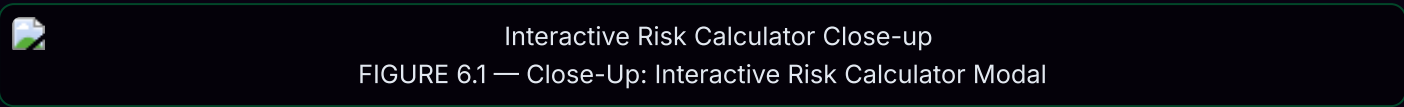

FIGURE 6.1 — Close-Up: Interactive Risk Calculator Modal

1. Select Account Balance

Click preset balance buttons (\$10k, \$50k, \$100k) or type your exact account size.

2. Select Risk Percentage

Choose 1% or 2% max risk per trade to calculate exact dollar risk.

Automatic Contract & Lot Sizing

The calculator automatically outputs the exact number of **Futures Contracts** (e.g. 2 NQ Contracts or 20 MNQ Micro Contracts) or **Forex Lots** to trade based on your stop loss distance.

CHAPTER 7: Active Runners Desk & Target Tracking

When a trade moves into profit, it automatically transitions to the **Active Runners Desk**:

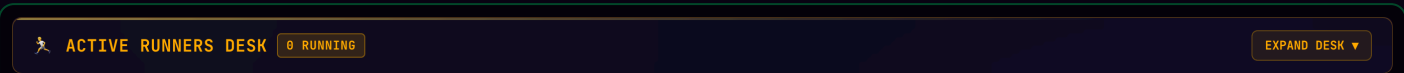

FIGURE 7.1 — Close-Up: Active Runners Desk Expanded View

3-Step Active Runner Lifecycle

- **Step 1 (+1R Open Profit):** Trade moves to the Runners Desk. Adjust Stop Loss to Breakeven (BE) to guarantee a risk-free trade!
- **Step 2 (+2R Target 1 Hit):** Target 1 is reached. Realized profit of +2R is recorded.
- **Step 3 (+3R Target 2 Hit):** Target 2 runner target is achieved! Full +3R profit is logged to analytics.

CHAPTER 8: Voice Alerts & Watchlist Customization

Stay informed without staring at charts all day long!

Live Voice Announcements

Toggle voice alerts in the top bar to hear audio notifications whenever a setup is published or hits TP1/TP2.

Star Favorites to Watchlist

Click the star icon next to any asset ticker to add it to your personal Watchlist for instant filtering.

YOU ARE ALL SET TO TRADE!

You now have complete mastery over Manna Edge Markets 2.0. Execute with discipline and manage your risk!
