How to turn on live voice announcements and star your favorite trading pairs.

CHAPTER 1: What is Manna Edge Markets?

Welcome to **Manna Edge Markets 2.0**! This website is designed to help you trade **Futures** and **Forex** with clarity, confidence, and discipline.

Instead of staring at confusing charts all day or relying on lagging indicators, Manna Edge Markets continuously scans the market in real time to find high-probability trade setups for you.

★ What Manna Edge Does For You

- **Scans Markets Automatically:** Finds setups on Futures (NQ, ES, YM, Gold, Oil) and Forex (EUR/USD, GBP/USD, USD/JPY).
- **Calculates Risk & Reward:** Every setup gives you a clear Entry Price, Stop Loss, Target 1 (+2R Profit), and Target 2 (+3R Profit).
- **Tracks Active Trades:** Automatically moves winning trades into an *Active Runners Desk* once they hit +1R in profit.

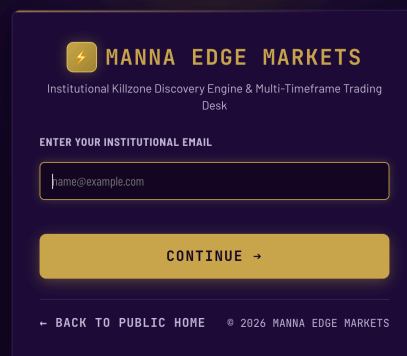

A screenshot of the Manna Edge Markets login portal. The interface is dark-themed with yellow accents. At the top, it says 'MANNA EDGE MARKETS' with a lightning bolt icon, followed by 'Institutional Killzone Discovery Engine & Multi-Timeframe Trading Desk'. Below this is a prompt 'ENTER YOUR INSTITUTIONAL EMAIL' and a text input field containing 'jame@example.com'. A yellow 'CONTINUE →' button is positioned below the input field. At the bottom, there is a link '← BACK TO PUBLIC HOME' and a copyright notice '© 2026 MANNA EDGE MARKETS'.

CHAPTER 2: Logging In & Account Preferences

Getting started on Manna Edge Markets is simple and fast:

1. Enter Email & Password

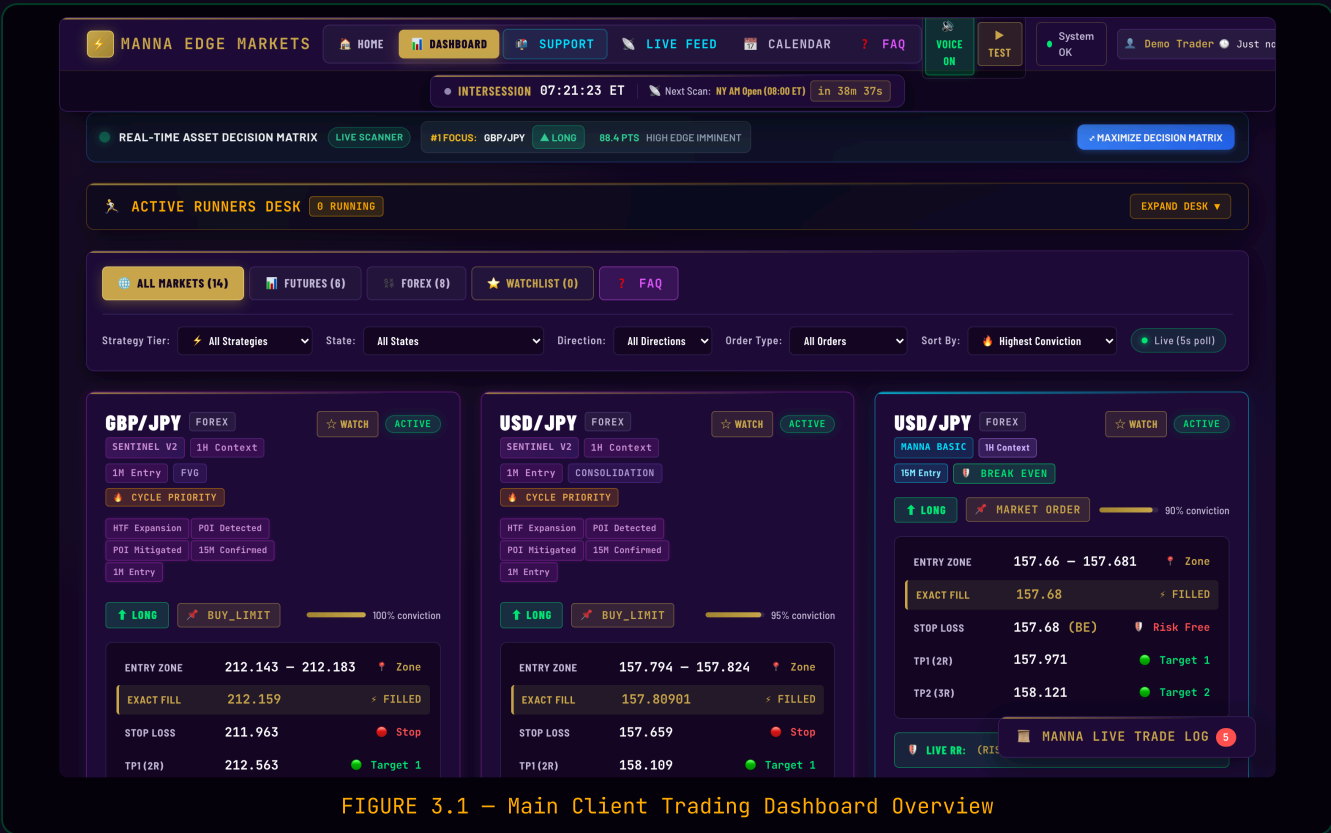

Type in your registered email address and password on the login screen shown in Figure 1.1.

2. Select Market Access

Choose whether you trade **FUTURES ONLY**, **FOREX ONLY**, or **BOTH MARKETS**. The site instantly customizes your dashboard.

CHAPTER 3: Navigating Your Trading Dashboard

Once logged in, you arrive at your **Main Trading Dashboard**. Everything is neatly organized on one high-performance screen:

◆ Top Market Filter Tabs

Click **ALL MARKETS**, **FUTURES**, or **FOREX** at the top to filter setups.

🏃 Active Runners Bar

Located right below the header, this compact bar shows active runner trades locking in profit.

CHAPTER 4: How Trade Cards Work

Every trade setup generated by the system is presented as a clean, actionable **Trade Card**.

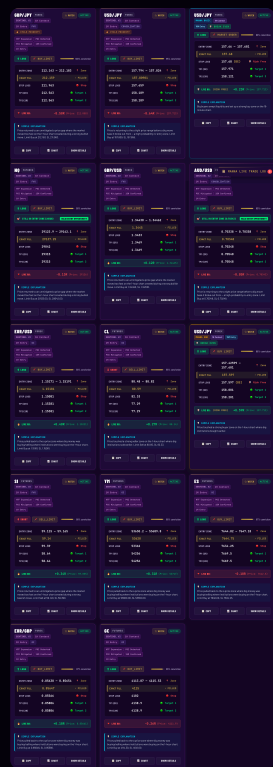

FIGURE 4.1 – Live Trade Setup Cards Grid

What Every Trade Card Shows You

ASSET & DIRECTION

e.g., NQ ▲ LONG (Buy) or EUR/USD ▼ SHORT (Sell).

ENTRY ZONE

The exact price range where you place your limit entry order.

TARGET 1 (2R) & TARGET 2 (3R)

Your first and second profit targets with 2:1 and 3:1 Reward-to-Risk ratios.

CONVICTION SCORE %

Confidence rating (e.g. 88%) based on market strength.

CHAPTER 5: The Asset Decision Matrix

Not all opportunities are equal. The **Asset Decision Matrix** evaluates and ranks assets in real time so you instantly know which asset offers the best trading setup right now.

How the Decision Matrix Ranks Assets

It evaluates 6 core factors:

1. **Conviction Rating:** Higher confidence setups get top priority.
2. **Historical Win Rate:** How well this specific strategy performs on this asset.
3. **Liquidity & Volume:** Ensures high trading activity and tight spreads.
4. **Reward-to-Risk Ratio:** Prioritizes setups with generous upside potential.
5. **Killzone Timing:** Extra weight during peak hours (London & New York sessions).
6. **Price Proximity:** Identifies trades currently near their entry zone.

CHAPTER 6: Position Sizing & Risk Management

Managing risk is the secret to long-term trading success. Clicking on any Trade Card opens the **Interactive Risk Calculator**.

1. Select Account Balance

Click \$10,000, \$50,000, \$100,000, or type your exact balance.

2. Choose Risk Percentage

Select 1% or 2% max risk per trade.

Automatic Position Sizing

The calculator automatically tells you exactly how many Futures Contracts (e.g. 2 NQ Contracts or 20 MNQ Micro Contracts) or Forex Lot Sizes to trade. You never have to guess your position size!

CHAPTER 7: Active Runners Desk

When a trade setup moves in your favor, it transitions to the **Active Runners Desk**.

Simple 3-Step Runner Rules

- **Step 1 (+1R Open Profit):** Trade moves to the Runners Desk. Move your Stop Loss to Breakeven (BE) for a risk-free trade!
- **Step 2 (+2R Target 1 Hit):** Target 1 is achieved! Realized profit of 2R is logged.
- **Step 3 (+3R Target 2 Hit):** Final target achieved! 3R profit is logged into your analytics.

CHAPTER 8: Voice Alerts & Watchlist Customization

Stay informed without gluing your eyes to the monitor all day!

Live Voice Announcements

Enable voice alerts to hear audio notifications (e.g. "New NQ Long Setup Published" or "EUR/USD Hit Target 1").

Star Favorites to Watchlist

Click the star icon next to any asset to save it to your personal Watchlist for quick access.

YOU ARE ALL SET TO TRADE!

You now know everything you need to navigate Manna Edge Markets 2.0. Good trading!
